

THE SANCTUARY COLLECTION

Original Art for Wellness & Hospitality Interiors

Paintings and Bespoke Commissions by Jacqui Hoitingh

A curated collection of expressive paintings created for spaces devoted to rest, restoration and human connection. Through flowing forms, layered texture and nature-inspired colour, each work brings atmosphere, presence and a distinctive focal point to an interior.

ART FOR INTENTIONAL SPACES

The spaces we enter shape how we feel.

In hotels, retreats, therapy rooms and wellness environments, art is more than decoration. It can create a pause, soften an atmosphere and offer a sense of connection before a word is spoken.

Jacqui Hoitingh's paintings are built through layers of colour, texture, movement and light. Inspired by elemental forms and the rhythms of nature, they bring warmth, depth and a distinctive presence to contemporary interiors.

The Sanctuary Collection brings together original works selected for spaces devoted to rest, restoration and human connection. Individual paintings, curated groups and bespoke commissions are available.

She rises through layers of water, light and memory - fluid, luminous and almost otherworldly.

There is movement here, but also stillness. A sense of something ancient stirring beneath the surface, then slowly revealing itself.

Whispers from the Deep is about emergence - the quiet moment when something within us is ready to be seen.

She rises as if carried by her own becoming - unfurling through colour, movement and light.

There is no rush here. No forcing. Just the sense of something opening when it is finally ready.

Becoming Light holds that moment of transformation when we stop reaching for who we think we should be and begin to recognise what has been there all along.

She moves through sweeping currents of colour and light, yet nothing in her is hurried.

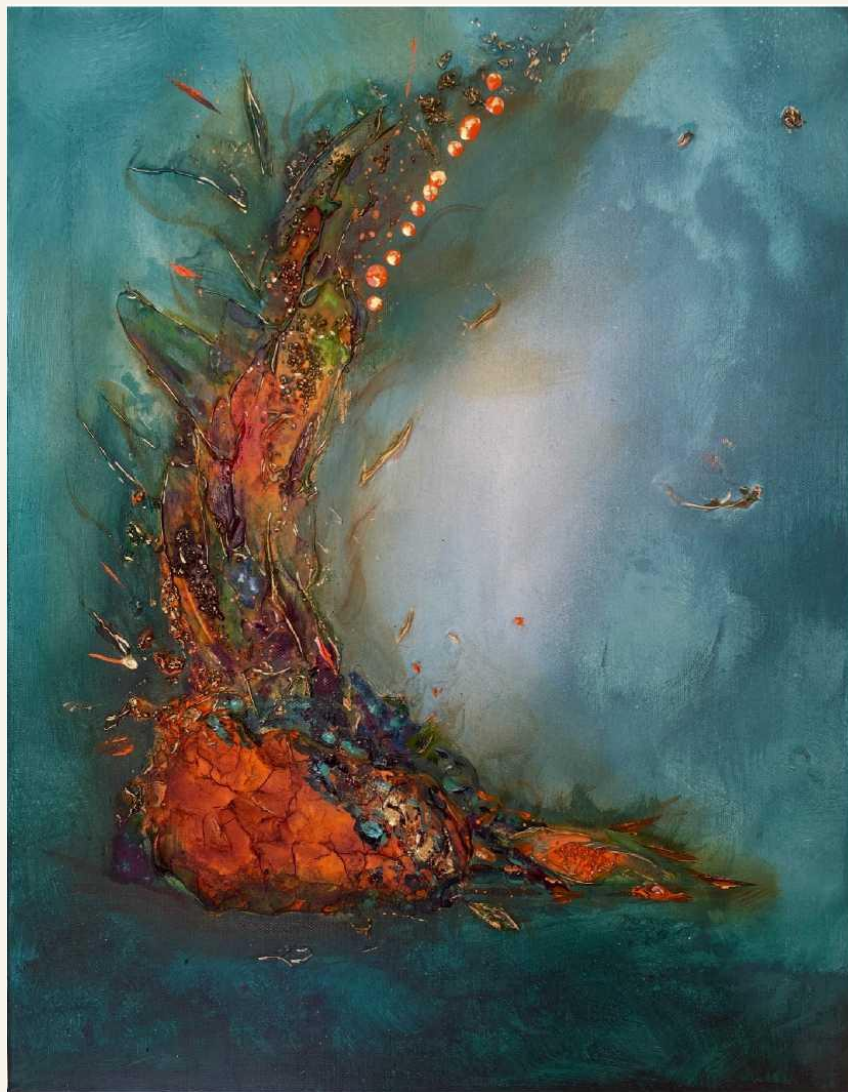

Behind her, deeper waters gather. Ahead, space opens. She does not resist the movement or try to control where it leads.

Serenity is the quiet strength of remaining centred while life shifts around us - a reminder that peace is not the absence of change, but the way we choose to meet it.

Something is stirring beneath the surface.

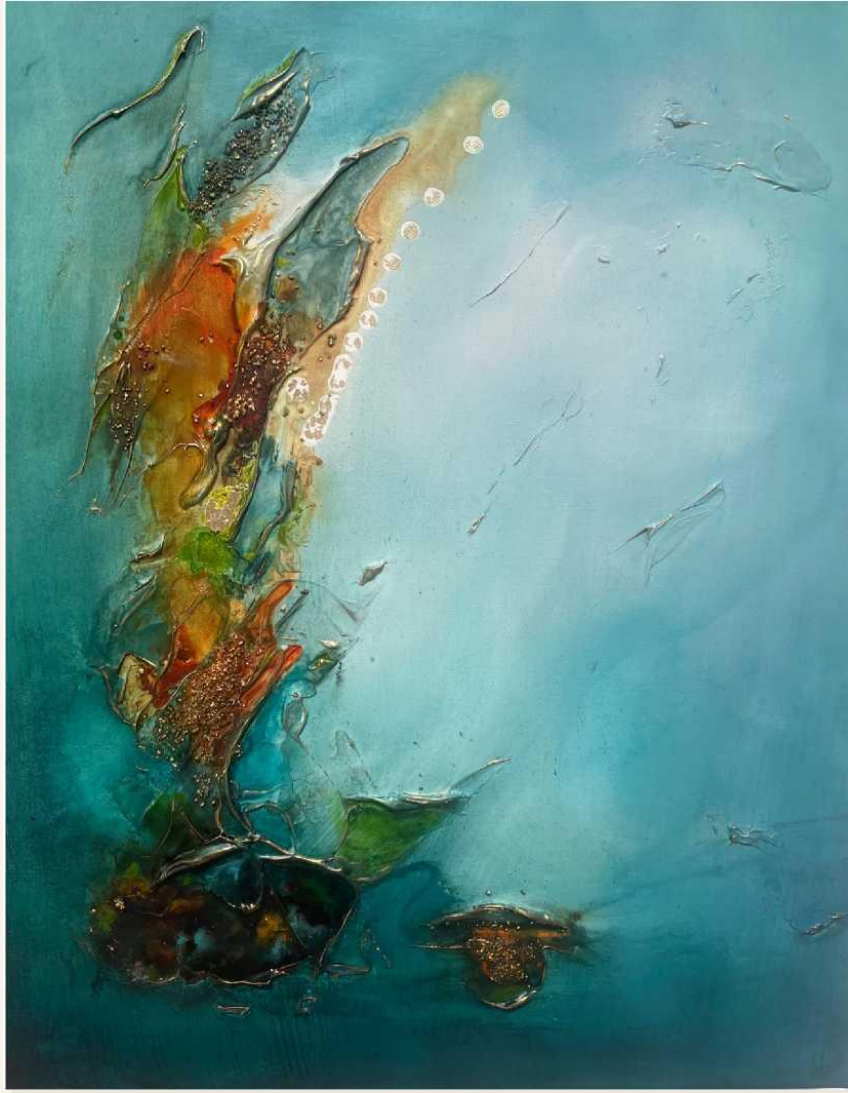

Heat, colour and texture rise through the stillness as if the earth itself is remembering
how to move again.

Core Awakening holds that moment when energy returns with purpose - a release, a
rekindling, a reminder that what has gone quiet is not necessarily gone.

Some stories never disappear. They simply sink beneath the surface and wait.

Fragments of colour and light drift upward like memories from another world -
half-hidden, half-remembered.

Rising Secrets from the Deep holds the mystery of what remains unseen and the
strange beauty of something ancient finding its way back into view.

She has held it all - roots and rivers, fire and forests, grief and growth.

There is something ancient in her stillness, as though the earth itself has taken form
and paused for breath.

Gaia's Exhale speaks of wisdom, renewal and our belonging to something far greater
than ourselves.

Beneath layers of colour and light, another world seems to shimmer into view.

Fragments of architecture, embers of gold and the hush of deep water suggest something once known, now almost forgotten.

Echoes of Atlantis holds the mystery of lost beauty, ancient memory and the feeling that some places never entirely disappear.

Two worlds appear to reach toward one another, separate and yet unmistakably part of the same whole.

Infinite Connection speaks of the threads that remain when everything else shifts - the unseen bonds between people, places, moments and possibilities.

What looks divided may only be waiting for us to see the connection.

Heathered mountains rest beneath an open sky, their reflection held quietly in the loch below.

There is a hush here - the kind that invites you to stay a little longer, breathe a little deeper and listen for what only becomes clear in stillness.

Still Water's Secrets is a place to pause, reflect and simply be.

The landscape seems to hover between storm and stillness. Light gathers above the water while layers of teal, ember and gold reveal a place that feels both ancient and newly discovered.

Held in Stillness invites the eye to wander and the breath to slow.

An atmospheric work for spaces created around reflection, restoration and quiet presence.
